

Université Paris-Saclay, a leading player in innovation

France's top university

13% of French research

220 laboratories

More than 500 experimental platforms

More than 50 deep tech companies launched per year

More than 335 corporate contracts

Placing its links with companies at the heart of its strategy,

Encouraging entrepreneurship within the university's community

And fostering technology transfer.

The Université Paris-Saclay innovation cluster was born from this very ecosystem

Bringing together leading local stakeholders as part of the same label (*France 2030 logo*)

With shared objectives:

Raising awareness and training the university's community

Market analysis

Supporting technology transfer and company creation

Providing access to skills and expertise
