

SPRINGER NATURE TRANSFORMATIVE AGREEMENTS

Author eligibility workflow
Couperin, 4th of July, 2024

SPRINGER NATURE GROUP

Introduction to Open Access Publishing Services

1

SPRINGER NATURE GROUP

OA workflows: More than a platform

Reliable, customizable, and efficient workflow, **reducing costs & admin efforts** for authors and institutions

Open access publishing process

Submission

Manuscript is submitted
Submitting author provides e.g. **FundRef** and **ORCID** information, article category is assigned
Peer review is conducted in the following

Editorial Acceptance

After editorial acceptance, the corresponding author is able to identify themselves as affiliated to a member institution

Identification

OA agreement specific eligibility check: in-scope journals, article types
Corresponding author identifies themselves as connected to a member institution

Verification

Identified article is sent to the member institution's **article approval service accounts** for **final verification of eligibility**

Publication

The author can now complete the remainder of the production process and the article is published **open access**
An **OA funding note** is added

Author journey after editorial acceptance

Once an article has been editorially accepted, authors will be able to identify themselves as being affiliated with a relevant institution

If they are publishing in an eligible journal with an article type that can be covered by an agreement, their institution will confirm if they are eligible

For hybrid journals, the author has the option to opt-out of publishing open access

In case of rejection, the author has the option to publish open access with their own funding or publish traditionally non-open access

To find lists of eligible journals and article types, please visit our Institutional Agreements website:
springernature.com/gp/open-research/institutional-agreements

Author/article identification

After article acceptance, the corresponding author receives an invitation to complete the publication process for the article and the authors are able to identify themselves:

Corresponding author/article identification parameters:

1. Selected institution
2. Email domain recognition
3. IP recognition

Selected Institution 	Institutional Email 	Location 
Please input your institutional affiliation when prompted.	Please use your institutional email address.	Please complete the form while within your institution's network.

A hierarchy is applied to the identification parameters in the order above

When completing the identification phase, the corresponding author will be prompted to type in their institution and then select it from a dropdown list. The email domain and the IP address will instead be picked up by the system automatically

Author/article identification

An author identifies themselves by using the following identification parameters

For example:

1. Selected institution: Université Paris Dauphine
2. Email domain recognition: University of Vienna
3. IP recognition: Cairo University

→ **'Selected institution' is the strongest parameter.** The author is identified as being affiliated with the Université Paris Dauphine

Author journey after
editorial acceptance

2

SPRINGER NATURE GROUP

Email invite to complete process

Once the article is editorially accepted, the corresponding author receives an invitation to complete the publishing agreement

SPRINGER NATURE

Dear Dr. Charles Darwin

We're delighted that your article has been accepted for publication:
'The zoology of the voyage of H.M.S. Beagle'.

You now need to:

- Provide details to help us check whether your article processing charge (APC) is covered by your institution or a journal partner.
- Read and accept your publishing agreement.
- Make a payment if the APC is not covered.

If you want to publish subscription, instead of open access, there will be an option to do that in the following steps.

Continue with publishing your article:

<https://publishing-and-rights.springernature.app/workflow/123>

Kind regards,

Springer Nature Author Service

If you have any questions, please do not hesitate to contact our Author Service team at
ASJournals@springernature.com

Select country

The author is prompted to select their country from a dropdown list

SPRINGER NATURE

Next steps for publishing your article

Select country

Dear Dr. AuthorName AuthorSurname,

Select your country to proceed with the next steps for publishing your article.

Country:

Iran, Islamic Repub

Article type
Article

Journal name
Nutrition & Diabetes

OA information page

Authors are given basic information about publishing their article open access, including the list Article Processing Charge (APC) of the journal

If authors would like to publish subscription instead, this can be selected later in the process

SPRINGER NATURE Jane Doe ▾

Publishing and rights

Open access

Publishing open access with us (gold OA) lets you share and re-use your article immediately after publication.

The article processing charge (APC) to publish your article open access is:

Article processing charge £3780.10 / \$4080.50 / €4120.90
(excluding local taxes)

Some organisations will pay some or all of your APC.

We will now check whether your APC is covered by any of our agreements.

If you want to publish subscription, instead of open access, there will be an option to do that in the following steps.

Institutional agreements

If an author's institution has an agreement with Springer Nature to cover the costs of open access publishing, the author will be given information about the agreement in case they are eligible for coverage

Authors are able to opt out of an agreement and publish under a subscription model at this stage

SPRINGER NATURE

Publishing and rights

Confirm your eligibility status

Thank you for confirming your institution or university. Based on your selection, you have been identified as affiliated to the institution or university below.

Open access at no cost to you

You have identified yourself as affiliated with the University of Edinburgh. The agreement between your institution and Springer Nature enables you to publish your article open access at no cost to you.

On www.springernature.com/oaforinstitutions you will find specific information on the agreement.

Next

▶ No, I want to publish my article without open access

What happens next?

- We'll contact organisations you selected and confirm if they'll pay some, or all, of the APC
- We'll email you once we know (normally within 5 days)
- Then you can continue with publishing your article

[Submit for approval](#)

Need help? [Contact us](#).

Publishing model choice

If an author does not have an agreement available to cover the costs of publication, they will be given the option to either publish subscription or pay for open access using other funds

If they select open access, they will have the opportunity to provide billing details

Publishing agreement

Choose how to publish

 **We encourage you to publish open access if you can** — it makes your research more widely available. However, you will need to have the funds to pay the article processing charge (APC).

 **We suggest that you explore your funding options** — it makes your decision easier. How to get information:

- Check our [list of funders](#) first, as your APC funding may be covered
- Consult our [funding support service](#)
- Contact the librarian at your institution

 **We know that this is not a quick decision** — if you want to look for help to pay this before making a choice, you can return to this page when you're ready.

Please select your publication model:

Publish open access – everyone can read your article for free online
The APC for this article is £3780.09 / \$4080.50 / €4120.89. The final amount will depend on any local taxes or admin fees.

Publish subscription – readers will need a subscription to access your article
Check the conditions of your funding before choosing subscription. Some funders require immediate open access (read about [open access policy requirements](#)).

If you select the subscription publishing route, you accept the journal's standard licensing terms – including embargo and [self-archiving policies](#). These terms replace any others that anyone may declare to apply to any version of the manuscript.

OA pre-publishing declaration

Authors will be informed whether their APC will be covered by an agreement - if the APC is not covered then the author will have to pay using other means or publish using a subscription model

After this, the author will be able to generate the publishing agreement by confirming whether they are an employee of the US or UK governments

Next steps for publishing your article

Agree to publish

Dear Dr. Xiang Hu

Before we can continue with the publication of your article, we need you, the corresponding author, to provide us with permission to publish.

In order to generate the correct publishing agreement for you to sign, please make your selection from the options below.

Are you, as the corresponding author:

- An employee of the United States Government
- An employee of the Government of the United Kingdom of Great Britain and Northern Ireland, Canada or Australia
- Neither of the above

[Generate publishing agreement](#)

[Need help? Contact us.](#)

Your article

Article title
A General Self-Sacrifice Template Strategy to 3D Heteroatom-Doped Macroporous Carbon for High-Performance Potassium-Ion Hybrid Capacitors

DOI
10.1007/s40820-021-00663-7

Article type
OriginalPaper

Journal Name
Nano-Micro Letters

Author signs the LTP

For OA articles, the author needs to agree to the publishing agreement or Licence to Publish (LTP) post article acceptance

Agree to publish

Please read the publishing agreement below and accept the terms at the end of the document.

The order of authors in this publishing agreement is not reflective of the order of authors which will appear in your published article. Once you have completed this process, our Production team will send you the article proofs, including the correct list of authors.
